ALL REQUISITIONS ACCEPTED

** ALL EXAMINATIONS **

Remember to bring the Imaging Requisition plus your Health Care Card and photo ID.

If you are unable to keep your appointment, and need to reschedule, please phone the clinic directly. (There is no facility to look after small children). The following examinations are by appointment only. When making an appointment, please notify if patient is diabetic or pregnant.

Stomach and Duodenum (S&D), Esophagus (E), Upper GI (UGI), or Small Bowel (SB FT)

Morning Appointment - Nothing to eat or drink after midnight the night before the examination. Small Bowel exams may take up to three hours to complete.

Diagnostic Ultrasound Examinations

Abdominal Or Liver Elastography

Morning appointment: nothing to eat or drink after midnight or the morning of the examination. Afternoon appointment: a light breakfast of toast, coffee or tea (no dairy products) 6 hours prior to the examination.

Nothing to eat for 6 hours prior to the examination, but 1 1/2 hours prior to the examination drink FOUR 8oz glasses of water and refrain from urinating. Finish all glasses of water 1 hour before time of examination.

Obstetrical Or Pelvic / Kidneys (Renal) & Bladder

IMPORTANT: THE BLADDER MUST BE FULL.

1 1/2 hours prior to the examination drink FOUR 8 oz glasses of water and refrain from urinating. Finish all glasses of water 1 hour before time of examination

Nuclear Medicine Examinations

FOR ALL NUCLEAR MEDICINE EXAMS:

- Inform technologist if you are claustrophobic, breast feeding or may be pregnant.
- Do not wear any perfumes or colognes.
- No barium agents 2 weeks prior to exam.

HIDA (Hepatobiliary) Scan (Hepatobiliary Scan +/- GBEF), Meckel's Diverticulum:

- Consult with your doctor to see if you need to discontinue any medication in preparation for your exam.
- Nothing to eat or drink (no water) after midnight the night before the exam.
- No CT exams with ORAL contrast 1 week prior to exam.

Liver RBC Scan for Hemangioma:

• No CT exams with ORAL contrast 1 week prior to exam.

Renal Study: (Standard, Obstruction, Hypertension)

- Drink 3-4 glasses of water the morning of the exam. You may empty your bladder as needed
- For Hypertension renal scan patients: nothing to eat after midnight the night before the exam. Consult with your doctor to see if you need to discontinue any medication in preparation for your exam.

Thyroid Scan:

- · Consult with your doctor to see if you need to discontinue any medication in preparation for your exam.
- No CT exams with IV contrast 6 weeks prior to exam.

- Myocardial Perfusion Scan: No caffeine 24 hours prior to exam (this includes pop, chocolate, regular and decaf coffee).
 - Fasting 4 hours before the exam. Diabetics-fasting for 2 hours only. You may take your medications with a small amount of water as needed.
 - Continue to take your medications unless otherwise directed by your doctor.
 - Bring a snack as there will be a break to eat after the injection.

Other Scans:

· No prep unless informed at the time of booking.

*If you are breast feeding, please talk to the technologist prior to the injection.

Mammography

Do not use deodorant, antiperspirant or talcum before the examination. If you generally have sore breasts, we recommend avoiding caffeine intake for 2 days prior to your mammogram to decrease discomfort during your exam. Premenstrual breast tenderness - you may delay booking until tenderness has subsided. Wear a two-piece outfit. At time of booking advise where previous mammogram was done and if possible allow appropriate time for films to arrive before appointment date.

Pain Management Injections

Continue all medications and your usual diet both before and after the procedure. If you have an active bacterial infection your procedure will have to be rescheduled and you must notify Central Booking (780-669-2222). Please be advised, depending on your procedure, you may require a driver. When scheduling your appointment our Patient Care Coordinators will provide you with further instructions. You will be required to stay in the clinic for 15 minutes after the procedure to monitor your response to the injection. You should refrain from strenuous activity for at least a day after the injection. Avoid hot tubs, swimming pools or prolonged bathing for the next 24 hours.
